**APPLE
TO GO**

The healthy premium snack-pack on the go!
All cleaned up and ready to bite into!

APPLE TO GO

*APPLE TO GO –
healthy advertising that gets
straight to the core!*

Our APPLE TO GO product is now available to purchase, also with your own logo on request. Design your own sticker and napkin as well as the packaging print and labelling. Our team would be happy to advise you.

Not only the finished APPLE TO GO product is available to purchase from us, we also deliver the technology including licence required for you to carry out production yourself.

We look forward to hearing from you!

APPLE TO GO is the ideal companion for people on the go.

Whether you are going by car, airplane, train or whether you are in school or just walking around, in any circumstance this individually packed apple is a healthy and clean snack.

The Class 1 apple has already been washed and comes in a light, environmentally friendly film, protecting it from all environmental influences. Thanks to the unique effect of the protective film the apple remains fresh, crisp and juicy for longer: 100% taste!

The napkin included offers cleanliness. What is left of the apple after consumption can be replaced in the protective film and transported to the next waste disposal point whilst avoiding any mess.
